SUMMARY

Full stack developer working with Node.js, NestJS, TypeScript, PostgreSQL, MongoDB, and React. Built and shipped auth systems, AI-powered course APIs, and image delivery services — all live in production.

TECHNICAL SKILLS

Languages TypeScript, JavaScript	Backend Node.js, Express, NestJS
Frontend React, TanStack Query, Zustand, React Hook Form, Tailwind CSS, Shadcn UI, Framer Motion	Databases PostgreSQL, MongoDB, Redis, Prisma, Mongoose
DevOps & Tools Git, Docker, GitHub Actions, Vercel, Railway	Auth & Others JWT, GitHub OAuth, BullMQ

EXPERIENCE

Full Stack Developer — Intensive Cohort (KarmanX / NeoG) 2025 – 2026

- Developed and deployed full-stack web applications using React, NestJS, and PostgreSQL as part of an intensive training program.
- Built secure authentication flows and designed relational database schemas utilizing Prisma.
- Gained practical experience with version control (Git), basic CI/CD using GitHub Actions, and deployment via Vercel and Railway.

PROJECTS

CourseGen AI — AI-Powered Course Builder (SaaS)

<https://coursegen.brijeshdev.in/> · github.com/brijeshdevio/coursegen-ai

Stack: React 19 · NestJS 11 · PostgreSQL · Prisma · Groq AI · Tailwind CSS

- An AI-powered SaaS platform for instantly generating structured learning materials on any topic.
- Features a premium distraction-free reading interface, markdown rendering, and topic completion tracking.

PicURL — Image Upload & Delivery API (SaaS)

<https://picurl.brijeshdev.in/> · github.com/brijeshdevio/pic-url

Stack: React · TypeScript · NestJS · MongoDB · TanStack Query

- A developer-focused image upload and delivery API platform optimized for avatars and app assets.
- Features robust JWT & GitHub OAuth authentication, dashboard management, and API key provisioning.
- Implemented rate-limited upload endpoints, hash-based asset verification, and secure API key management flows.

EDUCATION

Chandigarh University 2026 – 2029

BCA — Bachelor of Computer Applications

NIELIT 2024 – 2025

O Level IT Course
